

I am writing in support of the Wisconsin No Call List. Please allow Wisconsin to maintain this law. The positive difference this law has made in our household is phenomenal.

We are now able to sit down to dinner and enjoy it, rather than having the phone ring approximately 10 times during dinner on any given night. We can now know that we have peace and quiet at night (between 8 p.m. & 9 p.m.) where before the law went into affect, we were guaranteed to have at least 5 calls each and every night, even on Sundays.

The sheer number of solicitation calls that we were receiving on a daily basis was very frustrating. I started screening calls, considered an unlisted number, and turned off the ringer so that we could live our lives in peace and quiet. The convenience of having a phone in your home should never be exploited to the point that you wonder if it is worth all the intrusions of unsolicited calls.

Thank you for your time & consideration in maintaining the Wisconsin No Call List.

Sincerely,

Candi Alexander
